4. Justification and Learning Objectives for the Course. (Indicate whether required or elective, and whether it meets University Writing, and/or Language requirements) [Use as much space as necessary]

   OLD
   This course fulfills 3 units of the lower division studio art requirement for the Art Major.
   This course provides students with the opportunity to explore artistic processes and emerging technologies involved in digital art and multimedia art forms. This course will also serve to complement numerous courses offered within the Art Program. (i.e. Animation, Graphic Design, Web Art and Time-Based Art). As a result of recent developments in digital art technology and its increased use of the computer in the creation of art, there is a clear demand for a course focusing on the conceptual development and technical methods employed in this artistic process. This course advances the mission of the CSUCI Art Program and the University to be on the forefront of technological innovation. It also serves to prepare CSUCI students to succeed as digital media artist working in the Web and entertainment industries.
