2. Justification.

When the BS Nursing program was proposed by me three years ago, it was before any nursing faculty member was hired. At that time, Dr. Barbara Thorpe and I cross-listed this course between Biology and Nursing, hoping that Biology program might be able to help provide instructor for the course in case nursing did not have instructor teaching it. Now, we have successfully recruited several nursing faculty members and the course has been implemented by the Nursing program, there is no need to have the Biology program to keep the cross-listing of this course. The course will keep its Nursing prefix. This issue has been discussed with Dr. Karen Jensen in the Nursing program and she agreed with this decision.
