1. **Catalog Description of the Course.** [Include the course prefix, number, full title, and units. Provide a course narrative including prerequisites and corequisites. If any of the following apply, include in the description: Repeatability; time distribution (Lecture ___ hours, laboratory ___ hours); non-traditional grading system (Graded CR/NC, ABC/NC). Follow accepted catalog format.]

**BIOL 342. THE ZOO: CONSERVATION, EDUCATION AND RECREATION (3)**
Three hours per week.
An interdisciplinary study of zoos and zoological gardens from scientific, managerial, business, recreational and educational perspectives. Analyzes how these perspectives are linked within zoo practices. The course will include an in-depth case study of a local zoo. Field trips to local zoos will be required.
GenEd: D and Interdisciplinary

**BUS 342. The Zoo: Conservation, Education and Recreation (3)**
Three hours per week.
An interdisciplinary study of zoos and zoological gardens from scientific, managerial, business, recreational and educational perspectives. Analyzes how these perspectives are linked within zoo practices. The course will include an in-depth case study of a local zoo. Field trips to local zoos will be required.
GenEd: D and Interdisciplinary

**ECON 342. The Zoo: Conservation, Education and Recreation (3)**
Three hours per week.
An interdisciplinary study of zoos and zoological gardens from scientific, managerial, business, recreational and educational perspectives. Analyzes how these perspectives are linked within zoo practices. The course will include an in-depth case study of a local zoo. Field trips to local zoos will be required.
GenEd: D and Interdisciplinary

**EDUC 342. The Zoo: Conservation, Education and Recreation (3)**
Three hours per week.
An interdisciplinary study of zoos and zoological gardens from scientific, managerial, business, recreational and educational perspectives. Analyzes how these perspectives are linked within zoo practices. The course will include an in-depth case study of a local zoo. Field trips to local zoos will be required.
GenEd: D and Interdisciplinary

3. Justification and Learning Objectives for the Course. (Indicate whether required or elective, and whether it meets University Writing, and/or Language requirements) [Use as much space as necessary]

**Justification**

Zoos and zoological gardens are widespread and highly familiar institutions. This course will introduce students to issues facing zoos from many different perspectives including biology, education, business and economics. Field trips to a local zoo, lectures, discussions, and guest speakers will enable students to: (a) examine the complex interdisciplinary issues facing modern zoos; (b) examine the roles and contributions of zoos to the local and global community; and (c) examine the changing public perception of zoos in contemporary society.

**Learning Objectives**

Upon completion of this course, students will be able to:

- Describe the roles of biology, business, economics and education within the zoo.
- Analyze the interactions of biology, business, economics and education in a zoo. This analysis will include the ways that these disciplines complement and conflict with one another.
- Reflect in written and oral form on the zoo as a social institution and the role of the zoo in contemporary society.
- Describe the processes of collecting and displaying flora and fauna in zoos.
- Analyze the development of a zoo collection.
- Describe the effects of the macroeconomy on a zoo.
• Describe microeconomic issues facing zoos.

• Evaluate the business and management practices of zoos including marketing and public relations.

• Analyze ethical issues in managing a zoo.

• Analyze current trends in zoos.

• Analyze the educational services offered by zoos and reflect on possibilities for new projects.

• Analyze how the educational projects of zoos are connected to what children learn in schools (California framework).

• Synthesize knowledge and information by developing a proposal for a new zoo exhibition.

4. Is this a General Education Course  YES

If Yes, indicate GE category:

5. Course Content in Outline Form.  [Be as brief as possible, but use as much space as necessary]

I. Introduction and Overview
   A. Biology and Conservation- Introduction to the history of zoos and collecting practices.
   B. Business and Economics- Introduction to managerial issues at zoos.
   C. Education- Introduction to education at zoos.

II. Biology and Conservation
   A. Collecting and exhibiting at zoos.
   B. Conservation at zoos.
   C. The fauna and flora at a local zoo.

III. Business and Economics
   A. Micro- and macroeconomic issues facing zoos.
   B. Zoo pricing and marketing.
C. Zoo staff including managers, keepers, curators, veterinarians, and the like.
D. Zoo budgeting including sources of revenue and costs.
E. The role of volunteers at the zoo.

IV. Educational projects, programs and materials addressing the needs of diverse audiences.
   A. Different age groups.
   B. Different cultural and ethnic groups.
   C. Different social and economic groups.
   D. Best practices in education.

6. References. [Provide 3 - 5 references on which this course is based and/or support it.]

General Zoo Information:

7. List Faculty Qualified to Teach This Course.
Biology faculty: Professors Ching-Hua Wang, Nancy Mozingo, Amy Denton
Business and Economics faculty: Professor Dennis Muraoka
Education faculty: Professors Joan Karp, Robert Bleicher, Jeanne Grier

8. Frequency.

Projected semester to be offered: Fall 2004

9. New Resources Required.

Computer software focusing on zoo management may be utilized in this course.

10. Consultation. Attach consultation sheet from all program areas, Library, and others (if necessary)

11. If this new course will alter any degree, credential, certificate, or minor in your program, attach a program modification.
