### Existing Program

**Name of Degree Program**
Bachelor of Science in Business  
Emphasis In Entrepreneurship  
Emphasis In Global Business  
• Minor in Business Management  
• Master of Business Administration (MBA)

**Catalog Description of the Program**
The Business Program has a liberal arts and interdisciplinary focus. It is built on the three Cs: critical thinking, cooperation (working with others), and communication (oral and written English). Students learn the fundamental principles of accounting, economics, finance, information systems, management, and marketing as applied in a variety of organizational settings. A distinguishing aspect of the Business Program is the requirement to take courses developed in conjunction with disciplines outside the traditional business curriculum. Examples include courses with Biology, Chemistry, Economics, Education, English, Fine Arts, and History. In addition, a Capstone Course provides students with the opportunity to integrate their knowledge through a Global Strategy Simulation exercise. To foster an integrative and cross disciplinary experience in a relevant business area, students are required to select one of two emphases: Entrepreneurship or Global Business. Both emphases draw on upper-division courses from accounting, economics, management and marketing to offer an in-depth perspective into two critical areas of business. We anticipate enhancing the curriculum with additional emphasis choices as the program grows.

**CAREERS:** The Business Program prepares students to work in a variety of organizations - both public and private. The Bachelor of Science degree prepares students for several types of graduate and professional school studies: MBA, MPA, law school.
