☐ Prefix/suffix
Justification

Units: The units of the course have been increased for two reasons. First, Teacher Performance Assessment (TPA) will become mandated for all Teacher Credentialing Programs in July 2008. The Single Subject Program must add this content and this assessment process to the program and it needs to have a home. With the additional time needed for instruction of this content and completion of the assessment tasks, the student teaching seminars are the likely place for this to occur as they are taken in the last two semesters of every student's program of study. Second, the course is currently offered for two hours every other week (the equivalent of one hour every week) even though the mode of instruction has mistakenly listed two hours for every one unit. Two hours per week are necessary to accommodate the additional content and assessment tasks.

Prerequisite/Corequisites: This section has been updated to reflect current practices in the administration of the program. Students should not be allowed to student teach (a culminating experience) without the content methods coursework either in progress or completed.

Catalog description: This section has been updated to reflect the changes in hours per week and the added content requirements.

Course content: This section has been updated to reflect the changes in course content and to further delineate it from the other student teaching seminar taken in another semester.

References: Teaching Portfolios will no longer be an exit requirement for the Single Subject Program, therefore the reference to teaching portfolios was deleted.
