Justification Because this course includes as much, if not more, academic writing than ENGL 105, it seems only appropriate it fulfill the general education writing requirement, rather than deem that requirement a prerequisite. In making the change in prerequisites, we noticed minor changes in description, enrollment, and references that needed updating to make them consistent with other composition courses. -- N.B.: We listed the new and old references vertically, rather than horizontally (as is indicated in the form) because it was impossible to insert the new list into the space on this automated form.

Faculty member(s) proposing REVISIONS in Course: Christine Popok & Bob Mayberry

Indicate which of the following GE would be satisfied by this course by marking an “X” on the appropriate lines. Courses may be placed in up to two GE categories as appropriate. Upper Division Interdisciplinary GE courses (UDIGE) may be placed in two GE categories in addition to the UDIGE category.

Lab Included? ☐ Yes ☑ No ☐ x

Please provide a brief explanation of how the proposed course meets each of the criteria for the selected GE categories.

This course fulfills the Gen Ed requirement for undergraduate writing and prepares students for success in their courses across the curriculum. It is designed with significant elements of service learning, including producing oral presentations and written documents for not-for-profit organizations. Internships may also be possible in some cases.

Since we have been unable to attract enough students to enroll in the class in the past, we are revising it to make it more appealing and bring it into line with other composition courses. To that end, we contend that this class clearly meets the criteria for the 3 Gen Ed categories, noted above: as a composition course it fulfills the same requirements that ENGL 103 and 105 do (A2); furthermore, because of the oral presentation element, the course further meets the requirements of category A1.

Learning Objectives:

1. Critical Thinking: Students will achieve the following:
   • analyze written work
   • frame conclusions from a range of information
   • predict outcomes based on known information
   • reflect critically on socio-cultural issues

2. Communication Skills: Students will achieve the following:
   • write clearer and more effective academic papers
