GE Criteria Approval Form

Course Number and Title: ECON 300 Fundamentals of Macroeconomics

Faculty Member(s) Proposing Course: Ashish Vaidya
Indicate which of the following categories would be satisfied by this course by marking an " X " on the appropriate lines. Courses may be placed in up to two GE categories as appropriate. Upper Division Interdisciplinary GE courses may be placed in two categories plus the UDIGE category.

|  | A1: Oral Communication |
| :--- | :--- |
|  | A2: English Writing |
|  | A3: Critical Thinking |
|  | B1: Physical Sciences |
|  | B2: Life Sciences |
|  | B3: Mathematics |
|  | B4: Computers and Technology |
|  | C1: Fine Arts |
|  | C2: Literature |
|  | C3: Languages \& Cultures |
| X | D: Social Perspectives |
|  |  <br> Physiological Perspectives |
|  | Upper Division Interdisciplinary GE | Lab Included? Yes ___ No __X___

Please provide a brief explanation of how the proposed course meets each of the criteria for the selected General Education categories.

ECON 300 is a valuable introduction to the methodological and concerns of the social sciences and economics in particular. Essentially it is a condensed form of ECON 110 and ECON 111. It surveys the scope of our discipline and identifies the broad intellectual and public policy issues which occupy the attention of most of our discipline. The course uses the scientific method to study economic behavior and institutions within which that behavior occurs, and builds skills in critical thinking.
Students who successfully complete this course will be able to:

- explain the economic behavior of households and individual firms
- describe and apply the scientific method to economic behavior
- apply the principles of supply and demand to determine prices and identify the factors that affect supply and demand .
- explain the workings of the national economy
- measure aggregate levels of economic activity
- evaluate the costs and benefits of alternative forms of public policy

Hence we feel that this course meets each of the criteria in GE category D.
