Oracle conversation how Peoplesoft works

GE handbook discussion:

- what do we want in it?
- Do we want it for the GE members (how the members make decisions on the courses) or for the Programs (the guidelines with criteria for GE courses).

We lay down for the GE members what we should be looking at when evaluating the course and what we need as far as Curriculog, advising, records, assessment (signature assignment) with policies and EO attached to it. Every year to be added to by the new members (a working document)

- How do we get this started?

Homework to all to think about input (from our stand point) what would you like the committee to pay attention to?

- What would you want the programs to pay attention when designing GE courses.
