SUMMARY OF CHANGES

After comments from the Chancellor's Office, the History Program has decreased the number of units required for the major. The modification also includes a change to the capstone requirement. The History Program wants to give students the choice of either completing a capstone or an internship. Last, we included a comment on double-counting to encourage students to double-count GE and Major requirements. This will give students the opportunity and flexibility to double major or add a minor.
