3. Committee read and made decisions on a number of course substitution petitions from students. The issue was substitutions for the “Multi-Cultural Requirement” for students who had already been GE certified.
4. Since the Committee will be considering new emphasizes, options, certificates and minors, the Committee asked Callie to obtain the Senate Minutes and Resolutions regarding these procedures.
5. During the Senate’s Intent to Raise Questions period, the Curriculum Committee will ask a question concerning the production of the next University Catalog. The Committee wants to be an active participant in the process, including the ability to proofread it before it goes to the printer.
