Program modifications must be submitted by October 15, 2010, and finalized by the end of the fall semester for catalog production.
Enter data in **YELLOWED** areas.

Date (October 5, 2010): 2010 2011 Catalog Copy; rev 10.7.10; rev 10.25.10; rev 11.22.10

Program Area: NRS

Semester /Year First affected: Fall 2011

Instructions: Please use this Program Modification form for changes to existing program requirements, units, outcomes, emphases or options, or for other programmatic concerns. For minor changes (faculty or address changes, additions of approved electives, minor editing for clarity, and other minor updates) use the Program Update form, available at the Curriculum website.

Paste the latest approved version of your entire program in the left AND right boxes below. Make your deletions in the LEFT column by using the strikethrough feature in Word or underlining, **and highlight**. Insert new language or other changes to the program on the RIGHT and highlight in **YELLOW** for easy identification. If possible, please align the two columns so that changes appear side-by-side with the original text.

understanding demographics and disparities in healthcare, ethical concerns and global perspectives in the practice of professional nursing at the generalist level.

Careers

The Bachelor of Science in Nursing features a clinical summer internship in a health care agency followed by two senior work study options. These experiences, in addition to the curriculum, prepare graduates for acute care, specialty units, public health, home health, extended care, assisted living, ambulatory, emergency, managed care, case management, occupational health and nursing management, staff development, and nursing education.

Program Learning Outcomes

Students completing the requirements for a B.S. degree in Nursing will be able to:

- Function within the professional nursing roles as a provider and a coordinator of care, a health educator, an advocate and as a member of the nursing profession in a variety of institutional settings;
- Collaborate as a member or as a leader of a health care team in the planning, implementation and improvement of health care services consistent with the health needs of a diverse and multicultural society;
- Follow the nursing process by assisting clients, families and communities to promote an optimum level of wellness, sustain life, recover from disease or injury in acute, long term care, institutional and community settings;
- Function as a successful professional by a commitment to self-growth, development and lifelong learning;
- For generic students meet the eligibility requirements to successfully pass the nursing licensure examination (NCLEX); and
- For generic and RN to BSN students meet the eligibility requirements for the California Public Health Nurse Certificate.
