3. Justification and Requirements for the Course. (Make a brief statement to justify the need for the course)

A. Justification:

Currently, CI offers a limited selection of languages for students to study (Spanish, Chinese, Arabic and ASL), perhaps the most limited selection in the entire CSU system. This situation would improve by adding French, one of the world's most important and widely spoken tongues. It is Europe's second-most widely spoken language and one of the few spoken throughout the entire world, including North America, the Caribbean, Africa, Polynesia, and Asia. French is an official language of 29 countries, second only to English. French is the second-most widely learned language in the world and one of the most important languages in diplomacy and trade. France and French-speaking countries play an active part in the world economy, accounting for some 20% of world trade in goods. The largest study abroad destination in the CSU is France, and French is the second-most commonly taught foreign language in California high schools and throughout the United States. A second semester of French is important so that students will be able to develop proficiency beyond the introductory course (101).

B. Degree Requirement:

Requirement for the Major/Minor
Elective for the Major/Minor
Free Elective

Note: Submit Program Modification if this course changes your program.

4. Student Learning Outcomes. List in numerical order. Please refer to the Curriculum Committee's "Learning Outcomes" guideline for measurable outcomes that reflect elements of Bloom's

Taxonomy: <http://senate.csuci.edu/comm/curriculum/resources.htm>. The committee recommends 4 to 8 student learning outcomes, unless governed by an external agency (e.g., Nursing).

Upon completion of the course, the student will be able to:

1. Ask and answer questions orally to demonstrate basic functional proficiency in French (GE 4.1)
2. Read and write simple texts in French on familiar topics
3. Give examples of English words derived from French
4. Identify unique traits of daily culture and customs, as well as key aspects and icons of French and Francophone civilization (GE 1.1b)
5. Describe the importance of the French language and culture in areas such as international politics, diplomacy, the arts, literature and film
6. Identify countries and regions of the world where French is spoken
