

This question is directed at: The VPs for Academic Affairs, Student Affairs, Business and Financial Affairs  
Technology and Communication.

According to the By Laws of the Academic Senate, the charge of the Fiscal Policies Committee is to  
“review the University’s annual budget” and make “policy recommendations concerning the optimum  
utilization of resources in the achievement of university academic objectives.”

To comply with this charge we require information from the major divisions of the university. Through  
the office of the Provost the Fiscal Policies Committee has requested information from each of the  
major divisions of the university regarding the use of university resources in their areas (questions  
available upon request).

Do you intend to supply the Fiscal Policies Committee of the Academic Senate with this information? If  
so, what is your timeline for doing so? If not, why do you refuse to provide the information necessary to  
carry out its charge according to the By Laws of this body?

Respectfully Submitted,
