A handwritten signature in black ink, appearing to read 'Vandana Kohli'.

Re: Minor in Africana Studies

Date: January 17, 2020

The faculty in Arts and Sciences have proposed a Minor in Africana Studies that is to be housed in the Political Science department. The minor is comprised of courses that are already being offered on campus and embodies the aspirations of several faculty who believe it will make a great addition to our academic offerings. The chair of Political Science has agreed to host this minor which does not require any additional resource needs.

I offer this letter as formal support for the minor.
