- How are the Lecturers informed that there will be a vote?

- The University Retention, Tenure and Promotion policy is designed to articulate the main professional standards which all faculty are expected to meet, as well as the manner by which their work should be evaluated.

Graduate-Level Writing and Communication Support

- Academic writing support for graduate students will be located in the Writing & Multiliteracy Center (WMC) in the Broome Library. The WMC will be providing tutoring, workshops, and programming for graduate school related assignments and projects such as graduate school applications, graduate level writing, grant proposals, research and personal statements, oral presentations, and research posters. WMC faculty and their professional consultants, who are also CI faculty, will be able to offer a broader range of tutoring hours for graduate students to increase access and availability in person and online. The WMC looks forward to collaborating with faculty to support students in CI's graduate programs. For more information or questions, please contact Faculty Director Dr. Sohui Lee (sohui.lee@csuci.edu).

I am so sorry for the delay in getting back to you. I wanted to confirm a few calendar issues before responding. If possible can you please schedule us for the March 17 senate meeting? We will likely need approximately 30 minutes or so for the presentation with a little time to answer any questions faculty may have.

- Please let me know if this works and I will get you a copy of our presentation materials as soon as we have them finalized.
